CLAIM DRUNKENNESS
HAS SHOWN INCREASE
UNDER PROHIBITIONSurvey of Thirty-eight Badger
Cities Indicates Greater Num-
ber of Arrests for this Cause

MILWAUKEE, Wis.—The Wisconsin association of cities, in a survey of thirty-eight cities, has found that the number of arrests for drunkenness has increased in Wisconsin under prohibition. The survey shows that in 1919, 1920, 1921 and 1922, the number of arrests for drunkenness in the state was 1,000, 1,100, 1,200 and 1,300, respectively. In 1923, the number of arrests for drunkenness was 1,400, or an increase of 100 per cent.

The survey shows that arrests for drunkenness are larger now than they were in 1919, the last year prohibition was in effect. In 1919, the number of arrests for drunkenness was 1,000, or an increase of 100 per cent. In 1920, the number of arrests for drunkenness was 1,100, or an increase of 10 per cent. In 1921, the number of arrests for drunkenness was 1,200, or an increase of 10 per cent. In 1922, the number of arrests for drunkenness was 1,300, or an increase of 10 per cent. In 1923, the number of arrests for drunkenness was 1,400, or an increase of 10 per cent.

The increase in drunkenness shows supporters of restrictive laws to be more than justified, because if they made reasonable laws the basis of their actions, we would not have so many obnoxious reform laws at present.

HOT DAYS AND NO RAIN
SCORCHING EARLY CROPS
IN LA CROSSE TERRITORY

Scorching reports from agricultural communities in the vicinity of La Crosse indicate that early crops are suffering greatly from the record breaking hot weather and lack of rain in this section of the country.

Traveling salesmen who came in from southern Minnesota today and Friday said that the farmers in that territory are alarmed over the continued hot and dry weather and that in districts where the soil is light, crops just above the ground are badly scorched.

Farmers were expressed today that the crop would be light in this county for the four canneries unless rain fell within the next few days. As it is, the early pea crop will get to the canneries from ten days to two weeks late, and prospects are it will not be heavy.

The early hay crop will be exceedingly light in the vicinity of La Crosse, farmers said today.

Fair and continued warm weather is the forecast for Sunday, although the general forecast for the coming week gives promise of showers in this vicinity.

The highest temperature recorded by the local weather bureau Friday was 88. The thermometer is expected to go higher today.

TELELAG ENDS ITS
CONVENTION WITH A
RELIGIOUS SERVICEExercises Held in Our Savior's
Lutheran Church; Presi-
dent Sater Preaches

The Telelag ended its convention in La Crosse Saturday morning with religious exercises in Our Savior's Lutheran church. The sermon was delivered by the president, the Rev. J. O. Sater, of Eggston, Minn. Friday evening at the normal school the Telelag concert was given, in which the La Crosse Normal Sangerchor assisted. A program of old Norse songs were given, especially those dear to the heart of the Telelag. Helge Thorsen of Koochiching county, Minn., played the hardanger, the eight-stringed Norwegian violin, and also danced the balling, an old-time Norwegian dance. O. F. Ombrecek of Silverton, Ore., also played selections on the hardanger. Friday afternoon the speakers at the meeting were Mayor J. J. Verchota, President Sater, James A. Peterson of Minneapolis and Knute Wefald of Minneapolis. A program of Norwegian songs and anthems also was given.

WARRANT ISSUED IS
FOR H. G. TETLEY ON
CONTEMPT CHARGE

A warrant for commitment for contempt was issued by Judge Higgins in circuit court Saturday morning for Howard G. Tetley, who is two months' alimony in arrears. The warrant orders the sheriff to arrest Tetley and keep him in the county jail until the alimony of \$50, and \$10 costs of the court action are paid. At noon Saturday Undersheriff Miller said that Tetley was not in the city. The warrant states that on December 16, 1922, the circuit court allowed Mrs. Laura H. Tetley, who sued her husband for a divorce, \$40 a month alimony. Tetley has not made the payments for April and May, the warrant alleges.

IMPORTANT SCHOOL
BILLS PASSED UPON
BY ASSEMBLY FRIDAYReverses Itself on Teachers' Pen-
sion Law; Approves Bill for
Educational Fund

MADISON, Wis.—Bills of far reaching effect in educational circles were passed upon by the assembly on Friday when it advanced the Lindahl bill for extending and part-time college classes at Superior with an appropriation of \$15,000; the J. I. Miller bill for the placing of \$1,000,000 a year into a fund to be used for the common schools and a substitute amendment to the Caldwell bill for the gradual wiping out of the teachers' retirement system.

Under the terms of the J. I. Miller bill a fund would be raised which would eventually support the common schools. Under its terms the inheritance tax payments are placed in this fund where they cannot be disturbed. The interest of this money would go to the common schools.

Under the present teachers' retirement system bill the system would be continued with its present members but no new teachers would be taken into it. The fund to be used to discontinue death benefits which have cost the state over \$100,000 will be considered by the assembly next week. This bill may be passed in the expectation that the Caldwell measure will eventually be defeated and to assure a lowering of expense to the state in any event. The retirement system now costs the state about a million a year.

ment Alleged by BothREUBEN SELBO STARTED THE
ACTION; WIFE GETS DECREECase Against Frank Freismuth
Removed to Eau Claire County

TWO DIVORCES were granted by Judge Higgins in circuit court Saturday morning and one divorce case was taken under advisement.

A divorce was granted Mrs. Christina Selbo from Reuben Selbo. Selbo had started suit, alleging that his wife nagged him, drove him from their home and that she refused to live in the house he planned to buy, on South Tenth street. Mrs. Selbo filed an answer and counter complaint charging Selbo with using vile language toward her, refusing to provide a suitable place for her to live and abusing her. They were married July 24, 1919.

Mrs. Ekerdahl Divorced
Mrs. Frances Ekerdahl was granted a divorce from Carl Ekerdahl on the grounds that he refused to work and support her properly and that he used abusive language toward her.

The divorce suit of Mrs. Lillian Robinson against Kenneth Robinson of Vernon county, was taken under advisement. District Attorney Helms, who also is divorce counsel, was not present when the case was called. The court decided to await a report from him before acting.

Freismuth Case Removed
In the case of Frank Freismuth, charged with a statutory offense, the court decided that the surety for his bail of \$500 was not sufficient and ordered Freismuth held by the sheriff until more suitable bail could be arranged. The court also signed an order removing the case to Eau Claire county for trial.URGE PASTEURIZING

MADISON, Wis.—The agriculture committee bill requiring the pasteurization of milk used in the manufacture of butter and cheese as a measure to prevent the spread of bovine tuberculosis, was passed by the assembly Saturday and sent to the senate. A motion to kill the bill lost, 16 to 38.

The Czerwinski senate bill prescribing requirements for the sanitary handling of bakery products was killed without a record vote. The Czerwinski senate bill-making February 22 a legal holiday for schools also was killed.

The assembly empowered the Weller bill empowering county boards to establish industrial and residential districts outside the limits of villages and cities and regulate the construction and use of buildings therein.

Traeger announced that Mrs. Phillips would be continued northward to the penitentiary on the train which was due here Friday night.

URGES VOLSTEAD ACT CHANGES

WETS IN WISCONSIN ROUSED
TO NEW EFFORTS BY ACTION
OF EMPIRE STATE GOVERNOR

MADISON, Wis.—By the Associated Press.—The Tucker bill providing for repeal of the Severson prohibition enforcement law, was Saturday taken from the table in the Wisconsin assembly, where it has been lying since March 21, and was placed on the calendar for action next Thursday. This action was taken by the wets just before adjournment of the lower house.

While the wet representatives in the Wisconsin legislature were jubilant over the repeal of the New York enforcement statute and were hopeful of new strength here, Senator H. J. Severson, author of the Severson enforcement law, declared that there was no reason for alarm among Wisconsin wets. He said that there was no possibility that the law he fathered will be repealed by this legislature.

The Tucker repeal bill was one of a number introduced into the legislature. After being recommended for indefinite postponement, the bill on March 14, was killed by the lower house, 46 to 35. It was then revived by reconsideration and laid on the table, where it reposed until Saturday. If revived, the wets claim that they can put the measure through the lower house.

The senate has indicated its stand on repeal of the Severson law by killing the Gettelman repeal bill, by a vote of 13 to 10. The drys claim that this line-up will remain unchanged, assuring death of any bill attempting to repeal the state law. By its action in killing the Sachtjen bill, restricting enforcement provisions of the Severson law, the upper house again indicated its stand against any modification of the state enforcement statute.

LEGISLATURE ENTERS UPON
SIXTH WEEK OF ITS SESSION
WITH LITTLE ACCOMPLISHEDFew of Big Problems Disposed of and Taxation,
Highway Legislation, Appropriations and
Other Major Subjects Still Remain on
Calendar of Unfinished Business

MADISON, Wis.—By the Associated Press.—The legislature enters upon its sixth month of meeting this next week, with scarcely a big problem solved.

Taxation, highway legislation, appropriations for larger state departments and institutions, tuberculosis eradication and a number of other major subjects of legislative consideration all are pending, as some members speak of a possible adjournment after the week ending June 23.

Many of the older members are urging haste in order that the house can wind up their business before July 4. There is even talk in some quarters of a special session early in the fall to consider tax legislation, that now appears to the senate to be a jumble.

Veteran members of the senate say that until tax legislation is disposed of the session will continue to drag out. For that reason they are urging a show down on the three revenue measures before the upper house for action as a special order of business on June 6.

COMMENT ON SMITH
ACTION IN SIGNING
DRY LAW REPEALER

HARRISBURG, Pa.—Governor Pinchot, in a statement on the action of Governor Smith of New York in signing the Mullan-Gage repeal bill, said that "the action of Governor Smith will make every loyal American doubly determined to see that the constitution and laws of the union are respected," and that this action "will undoubtedly draw the lines more clearly and hasten our final victory."

NEW YORK.—Governor Smith's signature on the repeal of the Mullan-Gage act has killed his chances of being nominated for the presidency by the state, William H. Anderson, state superintendent of the Anti-Saloon League of New York, declared Saturday.

WASHINGTON.—Repeal of New York's state prohibition enforcement law was characterized by headquarters of the Association Against the Prohibition Amendment Saturday as a triumph by the people over the Anti-Saloon League.

ST. PAUL RESIDENT
ASKS WRIT TO STOP
PRIMARY ELECTION

ST. PAUL, Minn.—By The Associated Press.—Frank E. McAllister, a St. Paul attorney announced that he would go into district court Saturday afternoon and ask for an order restraining the secretary of state from proceeding with the June 19 primary and July 16 final election for U. S. senator from Minnesota in succession to the late Knute Nelson.

Those senators who are of the opinion that no tax bill will be passed by the present regular session, predict a special session to be called early in the fall, after farmers have completed most of their work. These members point out that the governor

SAYS U. S. DRY
LAW IS WORK
OF "FANATICS"Executive Calls for "Common
Sense Modification" of Fed-
eral Enforcement Act to
Permit Beer and WineWARNS AUTHORITIES U. S. RULES
MUST BE STRICTLY ENFORCEDProhibition Enforcement Duty
of Federal Government
Says Veto MessageALBANY, N. Y.—The Mullan-Gage
state prohibition enforcement act
is dead.

Governor Smith killed it Friday night with the few strokes of a pen necessary to affix his signature to the legislature's repeal bill, adopted four weeks ago.

In announcing his action the governor called for "common sense modification of the Volstead act by congress, which would fix the alcoholic content of permissible beverages at a point that would make possible the sale of beer and light wines in states that want them."

This action is counted on by his supporters to make him a formidable bidder for the presidential nomination on a "liberal" platform in 1924.

In a 4,500 word memorandum defining the reasons for his action, the governor embodied a solemn warning that repeal of the Mullan-Gage law would not lessen the obligation of peace officers in this state to enforce to the letter its twin brother, the Volstead act.

"Let it be understood," said the governor, "that this repeal does not in the slightest degree lessen the obligation of peace officers of the state to enforce in its strictest letter the Volstead act, and warning to that effect is herein contained as coming from the chief executive of the state of New York."

At the same time, the governor said that the Volstead act's definition of intoxicating liquor as any containing one-half of one per cent alcohol "is not an honest nor a common sense one," and he "offered the constructive suggestion" that congress should fix a maximum permissible alcoholic content and that thereafter each state be left free to determine for itself what constituted an intoxicating beverage. He denounced the limitation in the Volstead law as "the work of fanatical drys."

The governor stressed his belief that enforcement is primarily the government's duty, not the state's, and that repeal of the state law is not in any sense nullification of the eighteenth amendment.

"With all the earnestness that I am able to bring to my command, let me assure the thousands of people who wrote to me on this subject," he said, "that the repeal of the Mullan-Gage law would not and cannot by any possible stretch of the imagination bring back into existence the saloons which is and ought to be a defunct institution in this country, and any attempt at its re-establishment by a misconception of the executive attitude on this bill will be forcefully and vigorously suppressed."

Sees End of Dry Law
Assemblyman Cuvillier, author of the bill, said the governor's approval marks "the beginning of the end of prohibition. The American people from now on will begin to get wise to the fanaticism which has been trying to rule this country."

Securing the suggestion that repeal of the Mullan-Gage law would involve nullification of the eighteenth amendment, Governor Smith said that mere omission to maintain a state statute in no way abrogates a federal statute. He said repeal of the law would not make legal a single act which was illegal while it remained on the statute books. It would not interfere with rigid enforcement by the state authorities of the Volstead law.

In Harmony With U. S.
Repeal would do this, the governor said: It would transfer prosecution of prohibition cases to the federal courts; it would do away with double jeopardy of state and federal prosecution; it

Did you ever think of it? What would life be without the influence of the church? One has said: "It's the church that makes life possible and gives it meaning." In a pronouncing sentence upon one guilty of a great crime, what is my judgment of the church?

Your Place Can Only be Filled BY YOU.

NEW DISHES FROM OLD
By BERTHA E. SHAPLEIGH
Of Columbia University
Women are always in search of a new recipe or some novelty for the kitchen or table. It is a perfectly reasonable desire, but so much has to be considered. It would be well to ask ourselves a few questions such as: Is this a dish which will take too much time in proportion to the pleasure which my family will get from it? Could I not use my own ideas, and alter an old reliable recipe, giving it a new touch?
Every housekeeper should have one really good cook book, and if she studies it and follows directions accurately, there are not many really "new" dishes which she would desire to make.
Fundamentally all good recipes are alike. I have been studying old cook books, books written in the seventeenth and eighteenth centuries, and the recipes are about the same as those in a modern book. Market conditions have made up for many preliminary directions, such as how to dress an animal, or for "beating" the whites, all of which we have done for us.
A "boiled custard" is a mixture of milk eggs and sweetening, cooked together until the eggs have thickened the milk. Flour, cornstarch or other thickening may be used in combination with less egg. When gelatin is added to that custard, and fruit and cake are used with it, it becomes when cold an elaborately molded pudding. Then if it is garnished at serving time with cherries, citron, angelica and beaten cream we have an artistic result which is very new to the family.
The same way with bread. From a plain bread mixture we may have fancy shapes, and various additions to make the rolls richer, or more pleasing to the taste.
White sauce is a mixture of butter, flour, milk or white stock. But it may be varied in many ways and a sauce which looks and tastes quite different will be the result. With a knowledge of the funda-

TAXES NEVER TO COME DOWN, IS SMOOT FORECAST

LOS ANGELES, Cal.—Senator Smoot (Rep., Utah) told members of the Lincoln club at a luncheon they gave in his honor that "never again will your federal taxes be less than \$3,000,000,000 a year, but probably more."

"The foremost subject now is taxation," he said. "For twenty five years the dominant question will be how to raise money for our government. In less than a decade we shall be paying \$1,500,000,000 a year in pensions to world-war veterans."

CALEDONIA SITS ON VISITORS' BENCH AT COPELAND ON SUNDAY LA CROSSE NELSONS AT HOME

WITH three victories and two defeats back of them, the La Crosse Nelsons encounter new opposition Sunday afternoon at Copeland park where they meet the reorganized Caledonia club.

Defeated in every game last season by the Nelsons, Caledonia, with a new battery is determined to run afoul of what they claimed to be the jinx, and start right off the go with a victory in the first game.

The names of Anderson, Decorah, appears in the Caledonia lineup as their twirler. Just what he will be able to do against Stak's tribe remains to be seen, but at any rate, he is heralded in these parts as a hard proposition. Handt completes the other end of the battery.

Big Benn has been scheduled to start, and unless the visitors get too active with their clubs, will remain in the game for the entire nine innings Sunday. Stromwall, although retained by the Nelsons, will not be in town Sunday. This is agreeable weather for Benn and barring all accidents he should turn in a good exhibition for the locals.

Four Detroit pitchers attempted to stop the Cleveland team, which made 16 hits and was given eleven bases on balls. Score:

Cleveland . . . 100 030 241—17 16 0 Detroit . . . 010 000 020—4 11 1 Elbe and O'Neill; Holloway, Olson, Collins, Francis and Bassler.

CHICAGO, Ill.—By The Associated Press.—Chicago dropped into the cellar on Friday when St. Louis defeated them, 8 to 5. The visitors drove Charles Robertson off the mound in the second inning when they piled up a five run lead and added three more runs by hitting Ted Blankenship opportunely. They were unable to do anything to Mack. Shocker was hit freely, but lightened up in the pinches and was backed by good support. The score: R H E St. Louis . . . 050 012 000—8 13 1 Chicago . . . 001 100 120—5 11 2 Shocker and Severider; Robertson, Blankenship, Mack and Schalk; Graham.

BLUE LAW OPPONENTS LOBBYING IN FAVOR OF GRAHN MEASURE

MADISON, Wis.—Opponents of Sunday blue laws are sending their literature to the senate in an effort to obtain approval by upper house members of the Grahn bill, legalizing all sports and amusements engaged in on Sunday. This measure passed the assembly by a narrow margin and now will be fought out in the senate.

A similar bill to that introduced by Assemblyman Grahn, which came before the senate two years ago, was killed without so much as a roll call. At this session the Wisconsin organization of the moving picture operators is sponsoring the bill and has submitted a brief outlining its passage.

Wisconsin's blue laws have been on the statute books since the first legislature when they were enacted. Few changes have been made since.

REIMANS TAKE ON GENOA IN CONTEST SUNDAY AFTERNOON

After their defeat by West Salem, 18 to 17, last Wednesday, the Reimans Sunday afternoon will journey to Genoa, Hastings will be on the mound for Genoa, with Clements back of the plate. Bell and Tank will no doubt be the local battery.

Questions

ONE—What are the rights of the base runner to advance on an infield fly?

TWO—Does a base runner after crossing first base, and then making a break for second, forfeit his right to return to first without liability to be put out?

THREE—Must a base runner after crossing first turn while in foul territory or is it also permissible in fair territory?

FOUR—When two runners are standing on the same base, to which runner is the base entitled?

FIVE—If a base runner starts to run the bases in reverse order to confuse the opposition, how may he be retired?

Answers
ONE—A base runner can now advance on an infield fly, just as on any other fly ball that is caught or muffed.

TWO—A base runner after crossing first base, and making an attempt to go to second, immediately forfeits his right to return to first without liability to be put out.

THREE—He can make such a turn on either fair or foul territory, provided he make no attempt to go to second.

FOUR—The original occupant is always entitled to the base, unless forced to advance.

FIVE—A base runner who runs in reverse order can be retired by being touched with the ball or having the ball held on the base to which he was legally entitled.

In what year did Edward Ray win the American national open championship and who were the runners-up that year?

Edward Ray won the title in 1920 at the Inverness club at Toledo, Ohio, with a score of 295. The battle for the title that year was one of the most sensational ever staged. Harry Vardon, who came over with Ray, as well as Leo Diegel, Jack Burke and Jack Hutchinson finished just one stroke away.

If upon reaching the green a player discovers that his ball is resting against the flagstick, which is in the hole, what is the proper procedure in such a situation?

The player shall be entitled to remove the flagstick, and if the ball falls into the hole, the player shall be deemed to have holed out at his last stroke.

What are the rights of a player when some loose impediment on the putting green, in his opinion, interferes with his next shot?

Loose impediment may always be lifted from the putting green.

When a ball is driven into permanent water, such as a brook or pond that is a regular part of the course, and it is impossible to find the ball, how should the next shot be played and what is the penalty for driving into the water and being unable to find the ball in play?

If able to recover the ball driven into the water it is customary to play the same ball. However, if unable to recover it, no additional penalty is assessed for such failure. Simply drop a new ball, keeping the spot where the ball went into the water between you and the hole. You suffer a penalty of one stroke in such a situation.

Can an amateur golfer write articles on golf for pay provided he is the actual author of same?

The rule relating to the forfeiture of amateur standing says: "A player forfeits his amateur standing if he receives pay for articles on the game which he did not actually write."

MEDFORD POSTMASTER DIES

MEDFORD, Minn., William A. Babler, pioneer resident and for 20 years postmaster, died at his home here following a short illness of pneumonia. Arrangements for the funeral have not been completed. He was one of the first settlers in this village.

George Chiles star pitcher of the Indians, had a field day at the plate in the slaughtering of the Tigers. Chiles pounded out four hits three of them doubles, in four times at bat and scored four runs.

Joe Sewell, a team-mate, was a close second, being at bat four times and making three hits, one a triple and scoring three times.

The veterans Ty Cobb and Harry Heilmann, were the only Tigers who touched Chiles for more than one hit. Cobb poked a single and triple while Heilmann got three singles.

Jimmy O'Connell, the Giant's high-priced San Francisco star outfielder, hit a single, three doubles and a homer in six times at bat and accepted eight hard fielding chances without a slip.

The bustling Athletics swung back into a winning stride and retrieved second place by trimming the Senators in a double-header.

George Torporec of the Cardinals continues to be a bad man in the pinches. His homer in the first inning with two mates on bases gave his club the jump on the Pirates who finally tied the count and then battled eleven innings before Eddie Ainsmith's sacrifice fly let Mort Stock score the winning marker.

Willie Kamm, Comiskey's \$100,000 Coast league beauty helped himself to a double and triple off Shocker, drove in two runs and scored on himself but this was not enough to beat the Browns, who got their hits in bunches.

Cy Perkins, the Athletics' star catcher, smashed out four hits including a double and a triple in the first game against the Senators and came back in the second game and poked a triple.

CHICAGO, Ill.—By The Associated Press.—There was more color in the major league baseball games of yesterday than has been spiced on the diamond for some time.

A lot of the vivacity was furnished by old John Pius Quinn, an iron man among the veterans in the sporting world who are enjoying a prosperous year. Cast-off by the New York Yankees two years ago, he performed his favorite pleasure of beating them yesterday the seventh time out of nine attempts that he has accomplished it since he was shunted away.

Quinn is around forty years old and has been pitching long enough to know that to win a game for the Boston Red Sox it is advisable to shut out the opposition, so he did that and his team-mates collected five runs. He showed no fear of Babe Ruth, striking him out once. But Babe's attitude became reciprocal and he got three hits.

The result lifted the Red Sox from the cellar to sixth place, the Chicago White Sox dropping into the basement from the blows of the St. Louis Browns 8 to 5 and Washington into seventh place before the on-rush of the Philadelphia Athletics who regained second place by winning twice, 7 to 4 and 4 to 2.

It was the Athletics' double victory that showed Cleveland back into third place, the one-day tenancy of that position being granted the day before by enforced illness. There was another splash of color in the Indian game the Detroit Tigers losing 17 to 4, the defeat sent Detroit into second division.

The New York Giants used a wide-bush in putting in their share of the day's playments, spending three hours in trouncing the Philadelphia Quakers, 22 to 8 and setting a record by making at least one run in every inning.

A streak of crimson was flashed across the canvas by the speeding red legs of Cincinnati who downed the Cubs again 5 to 3, gaining one point on St. Louis. The Cardinals won their second straight from the Pittsburgh Pirates 4 to 3, in eleven innings.

Leo Dickerman, Brooklyn recruit, was without control for his second consecutive time and the Braves knocked him out of the box winning 11 to 6.

Holloway, Bigney and Blue completed a triple play against Cleveland in the first inning, the first made in the American league this year. George Chiles star pitcher of the

Indians, had a field day at the plate in the slaughtering of the Tigers. Chiles pounded out four hits three of them doubles, in four times at bat and scored four runs.

Joe Sewell, a team-mate, was a close second, being at bat four times and making three hits, one a triple and scoring three times.

The veterans Ty Cobb and Harry Heilmann, were the only Tigers who touched Chiles for more than one hit. Cobb poked a single and triple while Heilmann got three singles.

Jimmy O'Connell, the Giant's high-priced San Francisco star outfielder, hit a single, three doubles and a homer in six times at bat and accepted eight hard fielding chances without a slip.

The bustling Athletics swung back into a winning stride and retrieved second place by trimming the Senators in a double-header.

George Torporec of the Cardinals continues to be a bad man in the pinches. His homer in the first inning with two mates on bases gave his club the jump on the Pirates who finally tied the count and then battled eleven innings before Eddie Ainsmith's sacrifice fly let Mort Stock score the winning marker.

Willie Kamm, Comiskey's \$100,000 Coast league beauty helped himself to a double and triple off Shocker, drove in two runs and scored on himself but this was not enough to beat the Browns, who got their hits in bunches.

Cy Perkins, the Athletics' star catcher, smashed out four hits including a double and a triple in the first game against the Senators and came back in the second game and poked a triple.

POLAND BEGINS ENFORCING COMPULSORY EDUCATION LAW

WARSAW.—By The Associated Press.—The first step towards the introduction of compulsory education in Poland, as provided by the constitution, has been taken by the ministry of education, which announces that, beginning next fall, all children born in Poland who have reached the age of seven years shall be obliged to go to school.

EACH WINNEBAGO IN JACKSON COUNTY PAID \$8.20 BY U. S.

Balance of \$10,449 Due Tribe
Under Terms of Old
Treaty

TOMAH, Wis.—A recent audit of the financial accounts of the Winnebago tribe of Indians revealed the fact that an unpaid balance of \$10,449.11 was due those of the tribe residing in the district of Jackson River Falls, Wis. Consequently, Superintendent John of the Winnebago agency at Wisconsin Rapids, closed Jackson county during the past week, and made a payment of \$8.20 per capita to each Winnebago of the county. Similar payments have recently been made at several points in the state, prior to this time, and pay day had none of the appearance of an "old time" when hundreds of Winnebagos were paid off at the county seat of Jackson county.

The same with the Winnebagos recently were in accordance with an old treaty obligation. These Indians of late years have been claiming that large sums were due the Wisconsin tribe of Winnebagos, and the Indian agent at Wisconsin Rapids has been making an effort to get the representatives of all tribes to meet at the home of the old treaty at Black River Falls, Wis. in July, 1922, that Indian and members of the tribe or their representatives be paid in an appropriate manner. Certain conditions, however, must be met in order to receive the money due the Winnebagos, but just how such conditions are to be met, without discussion of the tribal matters, is in the hands of the federal government. It is believed the purpose of the government is to settle the affairs of the Indian bureau as soon as possible with the future nature of the Indian and subsequent controversies.

During the year 1922, Clark of the county board received 125 marriage licenses in Jackson county, with but 10 divorces, a most unusual record. With but 121 per cent divorce, as compared with the national average, Monroe county appears in a fair way to keep the highest divorce record in the state.

Personalities of the well-known political and literary over the river, between Monroe and Butler by way of Dodge, may be discussed, and the latest of the state may extend along the Northwestern tracks. A shortening of the route would result from such a change, leading to a saving of two or three miles. This city is happy that such a policy may not be adopted by the state highway commission.

NOTE IN BOTTLE HINTS WOMAN HAD HAND IN MURDER

AUDORA, Ill.—A water glassed note found Friday in a bottle that had floated down the Fox river and been washed ashore here, hinted that the man whose name and mutilated body was found in a snow grave west of Greenfield, Ill., had been done to death at the house of a woman. The note was written on a piece of paper which had been torn off the hands having been chopped off and the face having been recognized by a girl who found the head.

The note read:
"She, I don't tell mother about Frank being killed this way. It would kill her. I want to see him at the funeral home at Greenfield. He looked better, but I never let on that I recognized him. They still think he was a home runner. The Lord will punish her. Is all that I have to say."

The note was written on the back of a bottle which was found and unopened.

PRESIDENT WON'T CONSIDER CHANGE IN SUGAR TARIFF

Modification of Rates Will Not
Mean Lowering of Price
Relief of Harding

WASHINGTON, D. C., May 28.—The Associated Press.—President Harding will not consider modification of the tariff rates on sugar as a means of bringing down the price of that commodity. It was said on Friday at the White House after the executive had discussed the general tariff situation with Chairman Marvin of the tariff commission.

Modification of the sugar schedule in the opinion of the president would not affect the present consideration to any degree and moreover would discourage development of the American domestic sugar industry, which the president believes provides the surest way to remedy conditions that now obtain.

The spokesman for the president said it was understood the whole tariff situation was gone over with a view to considering action on the inquiries instituted by the commission under the flexible provisions of the Fordney-McCumber act. Some criticism has been directed against the administration of this provision, the criticism being that it was being allowed to become practically inoperative.

The president, it was said, is determined to make the flexible provisions really active and not to allow them to go by the way of a dead letter. Chairman Marvin after his call at the White House said that recommendations in the cases of two or three commodities, possibly four or five, schedules would be ready for consideration by the president before he leaves on his trip to Alaska.

BOARD OF CONTROL CUTS ITS BUDGET FOR COMING YEAR

MADISON, Wis., May 28.—The present board of control has requested the legislature for \$24,000 less than was requested by the board two years ago for the maintenance and operation of the various state institutions, according to figures submitted by the board to the joint finance committee.

Two years ago the board asked for \$24,000; this year the board figures that it can get along on \$21,000. This last figure is a reduction of \$1,125,000 from the amount requested for the next biennium by the former board members now retired from office. The reduction was made possible, members of the board say, through elimination of a number of the important or less important items of the budget which the new board does not deem necessary or necessary at this time. The principal items of reduction were the Southern Wisconsin Colony and Training school, the Northern hospital and special requests.

FARMERS OF STATE TO GET HEARING ON CATTLE T. B. BILL

MADISON, Wis.—Farmers of the state will have an opportunity to appear on the principal agricultural bill of the present legislative session when the Schumann bill providing for an appropriation of \$1,000,000 annually for eradication of bovine tuberculosis is reached as a special order of business in the senate next Thursday, June 7.

At that time the upper house is expected to resolve itself into a committee of the whole to hear arguments for and against this measure which contemplates a much enlarged eradication program. Under terms of the bill, the agriculture department estimates that tuberculosis among dairy cattle can be eliminated in five years.

The existing state law provides for an appropriation of \$350,000 annually for the eradication work. A large number of northern counties have been cleaned up under this law, according to Senator John C. Schumann, author of the bill. He proposes that efforts shall now be concentrated in the southern counties where the chief dairy cattle population exists.

POWERFUL STORY AT MAJESTIC
"Another Man's Shoes" is an interesting title.

It suggests that the photoplay of which Herbert Rawlinson is the star, coming to the Majestic theater Sunday, may have something in it besides action and sentiment.

A matter of fact, the novel of that name by Victor Bridges has been widely read and many have praised it as a story of adventure that is something else besides a swashing complex of action. It has psychological punch in the printed form, and in transcribing the novel to the screen, Jack Conway, the director, and Arthur Statter, continuity writer, endeavored to retain this theme content to the fullest extent.

BLAINE SIGNS BILL TO INCREASE SIZE OF REGENTS' BOARD

University Board Brought Directly Under Control Under Severson Law

MADISON, Wis.—The Severson bill providing that two members of the board of regents of the university be farmers and two laborers became law Saturday with the signature of Governor John J. Blaine.

By increasing the board from 13 to 15 members the board of regents is brought under the control of Governor John J. Blaine. Besides providing for a regent from each congressional district the law now calls for four instead of two to be appointed at large. Two are to be farmers and two people who work at manual trades. The law also specifies that two of the members must be women.

The governor also signed the Perry bill prohibiting unauthorized persons from wearing the insignia of veterans of foreign wars. Other organizations of a patriotic nature are already included in the law. Unauthorized wearing of insignia carries a jail sentence up to 30 days and a fine up to \$20 under the provisions of the law.

QUARTER OF MILLION IN SKINS TAKEN BY TRAPPERS IN STATE

Muskkrat, Mink, Skunk, Coon
and Weasel Caught in
Large Numbers

MADISON, Wis.—In spite of the diminishing wild lands of Wisconsin with the further encroachment of civilization annually, trappers captured enough wild animals during the year's trapping season that ended April 30, 1923, to net them over a quarter of a million dollars.

Skins of thousands of Wisconsin animals entered the fur trade during the year according to the report of the conservation commission today. Muskkrat, mink, skunk, raccoon and weasel were caught in the greatest numbers.

A total of 19 hours were killed in Wisconsin during the past season, 63 badgers, 507 wolves and 43 wild cats. The report shows that 345 foxes were caught during the year. Muskkrat, mink and skunk, trapping proved to be the most profitable. In monetary value, skunks were the kings of the animal world. The fur of these animals trapped during the year was valued at \$91,314.02. The value of the total number of animals was \$30,352.15, and muskrats third with a total value of \$71,258.51.

Muskkrats were most numerous with 75,725 captured, skunks second with 38,590 and mink third with 14,757.

Other animals brought lesser prices for their furs. The 1,116 raccoons were valued at \$4,810.04; 2,513 weasels at \$1,791.33; 815 foxes at \$7,248.48; 507 wolves at \$1,691.49; 63 badgers at \$80.35; 19 hours at \$191.05; 43 wild cats at \$71.03.

Reports that many of the wolves produced in the state for the collection of bounties were brought in from outside of Wisconsin started a movement in the legislature this session to repeal the bounty law.

It is claimed that many of these animals are smuggled in from Canada or adjoining states for the purpose of collecting bounties.

MADISON, Wis.—The closing of two state banks was announced Saturday by Dwight T. Parker, banking commissioner. The People's State bank, of Lancaster, and the Bank of Campia, Barron county, are the institutions whose affairs have been taken over by the state, according to the banking department.

A local controversy in Lancaster involving church matters is understood to have precipitated a situation that led to the closing of the People's State bank. Andrew Zenz has been president of the institution for the past year.

Mr. Parker said that the reasons for closing the Campia bank had not yet been furnished him by the examiners.

LEAGUE OF BADGER CITIES TO DISCUSS DRY ENFORCEMENT

MOON IS FOUND BY DRY AGENTS HIDDEN IN SLOT MACHINE

MILWAUKEE, Wis.—Paul Mueller, who conducts a saloon at Buena Vista, on Milwaukee lake, didn't exactly sell moonshine from a slot machine to anybody who deposited money, but he did the next best thing, according to state and federal prohibition agents who raided the saloon late Friday.

In the slot machine the agents found a pint bottle, partly filled with moonshine from which, according to the agents, Mueller poured the drinks which he sold over the bar. A "little bird" had told the agents where Mueller kept his moonshine. They had him unlock the slot machine.

Other raids were made in the Town of Lake and South Milwaukee, where the moonshine and stills were found.

OVER 3 MILLIONS RETURNED TO U. S. IN FRAUD CASES

WASHINGTON.—By The Associated Press.—Attorney General Daugherty on Friday laid before President Harding a report showing that in the last year the war frauds' section of the department of justice had secured the return of \$3,198,355.19 to the government; had been awarded judgments for \$1,225,919 more and had obtained ninety-five indictments. Scores of additional civil and criminal suits are now awaiting trial.

The \$800,000 appropriated by congress at his request for the war fund work, the attorney general pointed out, had been returned many times over by these recoveries, despite "most stubborn interference on the part of those personally interested and involved and on the part of those who are used often innocently, to interfere with the efforts of the government."

The suit demanded payment of \$5,000 for damages alleged to have resulted from fires caused by a spark from a Great Northern railroad locomotive. Suits involving millions of dollars worth of other property are affected by the ruling.

BOOTLEGGERS AT CAPITAL STOCK UP FOR THE SHRINERS

WASHINGTON, D. C.—Despite the recent declaration of Commissioner Haynes that it is harder to get a drink in Washington than ever before, the Washington Post publishes a copyrighted story Saturday that several thousand cases of liquor have been brought into the city by bootleggers who are replenishing their stocks in anticipation of the large crowds that will gather for the Shriner's convention.

According to the story most of the liquor was landed from the celebrated yacht Istar of the Atlantic run fleet, which recently was off Cape Henry, Va. From this and other sources, it is declared, the city has ample supply to meet convention needs.

SAYS U. S. DRY LAW IS WORK OF "FANATICS"

(Continued from page one)

would place this state in harmony with decisions of the federal courts affecting prescriptions of liquor for medicinal purposes.

"Over and over all this," Governor Smith's memorandum went on, "I believe the approval of this repeal will re-awaken in the public mind the fundamental conception of the law of the land and re-establish beyond doubt what constitutes the essentials of the relation between the federal government and the sovereign states of the union."

Written by Dwyer

In offering his suggestion that the states should be left free to determine what is intoxicating, after congress has set a maximum alcoholic content the governor asserted that the one half of 1 per cent definition was written by "fanatical dyes in defiance of the general experience of mankind and of actual fact."

Referring to the effect of his decision on his own political future Gov. Smith said:

"I have no political future that I am willing to attain by the sacrifice of any principle or any conviction of what is for the welfare and the benefit of this state and nation."

The governor also took occasion to refer to the letter President Harding had written in response to a letter suggesting that repeal of the act "bore the color of treason."

"I yield to no man in this country when it comes to respect for the utterances of the chief executive of the United States," said the governor. "But it is impossible for me to be unmindful of the fact that I am the chief executive of a sovereign state and I am entirely in accord with the statement signed by former Judges Bartlett, Jenke, LaCrosse and Mr. Austin G. Fox, which dealt with the letter of the president and which in part said:

"It would be a calamity to permit such fundamental misconceptions of the relations of the state and the federal government as may seem to be suggested by portions of the president's letter to pass unchallenged."

Not State Duty
"No one has pointed out to me" the governor said, "any statutes or the constitution or any statutes or any decision of the Supreme court which imposes on our state the duty to maintain a state enforcement act."

"Congress made its determination as to what constituted an intoxicant. This state decided to agree with that determination. After all is said and done under our form of government we look to the courts for the interpretation which we must all follow. The United States Supreme court said:

"The power conferred to congressmen by the eighteenth amendment is in no wise dependent upon or affected by action or inaction on the part of the several states or any of them. If the right of congress is paramount, its responsibility must be paramount."

Enforcement of prohibition, the governor pointed out, is "infinitely easier" if the federal government would center efforts to stop smuggling liquor into this country. He declared it is easier to stop smuggling in of 500 cases of liquor before bulk is broken than to trace the same 500 cases after they have come into this country.

States Rights is Issue

Making it plain that he did not discuss the wisdom or unwisdom of prohibition, Gov. Smith asserted the basic question is whether all vestige of states rights is to be driven from our political theory of government. That he said he felt bound to assert "with all respect for the president of the United States."

The whole treatment of this question," he continued, "has been marked by hypocrisy. There should be no such thing as carrying water on both sides. If the country is looking for today, if I read the signs of the times right, is a constructive forward looking suggestion that disregards entirely the fanatical wets and the fanatical dries."

President is Silent

WASHINGTON, D. C.—By the Associated Press.—Prohibition Commissioner Haynes withheld comment Friday night on the approval given by Gov. Smith to repeal of New York's prohibition enforcement law as did President Harding after he had been informed of the governor's action by the Associated Press. At the White house it was said that the president would make no statement.

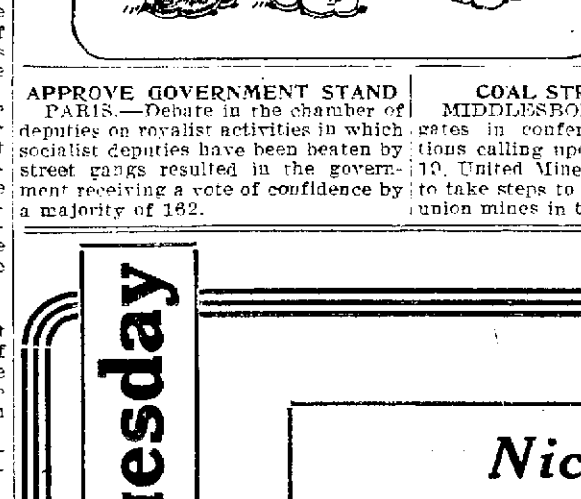

Dry Violator Discharged

NEW YORK.—Gennaro Celongoni, arrested Friday night charged with possessing 110 gallons of wine, was discharged Saturday by Magistrate Goodman on the ground that the court had no jurisdiction since the arrest was made after Governor Smith signed the repeal of the Mulan-Gage state prohibition enforcement act.

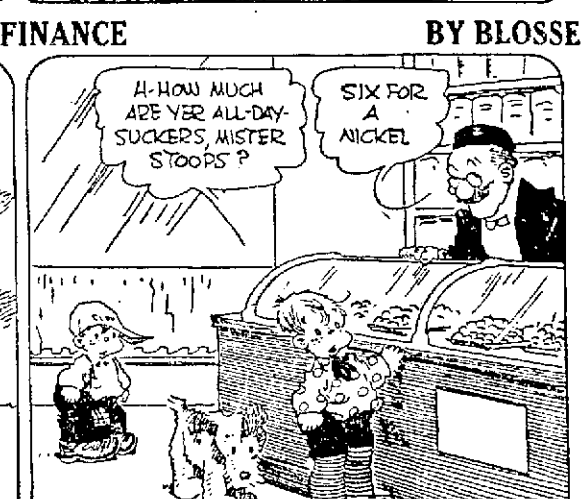

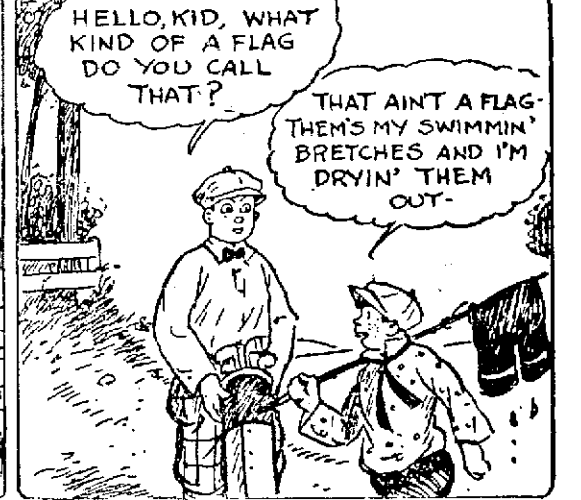

QUAKES RECORDED

REAL ESTATE TRANSFERS

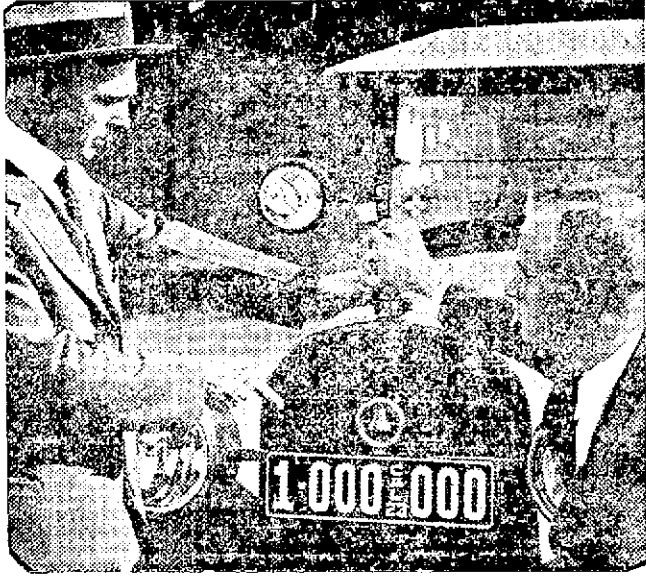

The following deeds have been recorded with Register of Deeds Wachs:

THE MILLIONTH LICENSE — TOYS TO CHINA — PRESERVE JOHNSON'S SHOP — BEACH PEACHES

WHAT'S A RIVER NOWADAYS?—Like Caesar, the men moving this house came, saw and conquered. When eighty Charleston residences had to be moved to clear a site for West Virginia's new capitol, realtors developing a subdivision across the Kanawha river, bought twelve of them and moved them thus-wise. The family living in this particular house left their furniture just as it was. Even the bric-a-brac on the mantelpiece remained undisturbed.

NOW SPEED COPS WILL WORRY—California, leading all other states in the number of automobiles, has just issued its millionth license plate this year. Don Boig, manager of the touring bureau of the Auto Club of Southern California, has just hooked it on his car.

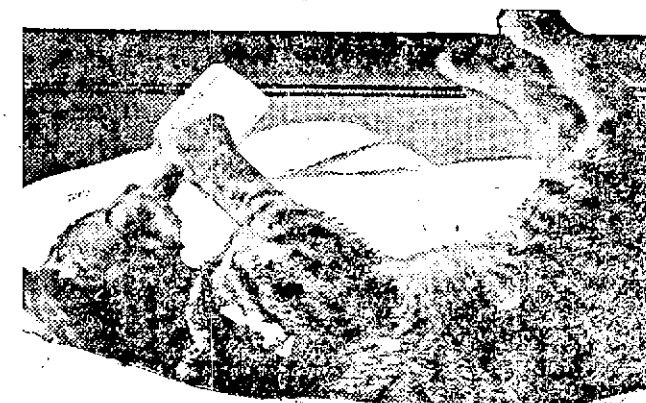

A SUDDEN PARTING—The lady doesn't wait for the horse to land before she dismounts. This, at a recent show at Sydney, Australia.

AURORA SHAKES WITH AUDRIE—Aurora Borealis (that's the St. Bernard) is rather heavy-handed with his greeting to Audrie Northridge, so Audrie extends both hands to him, like a lady to an old-time friend. This, at the dog show at Mineola, Long Island.

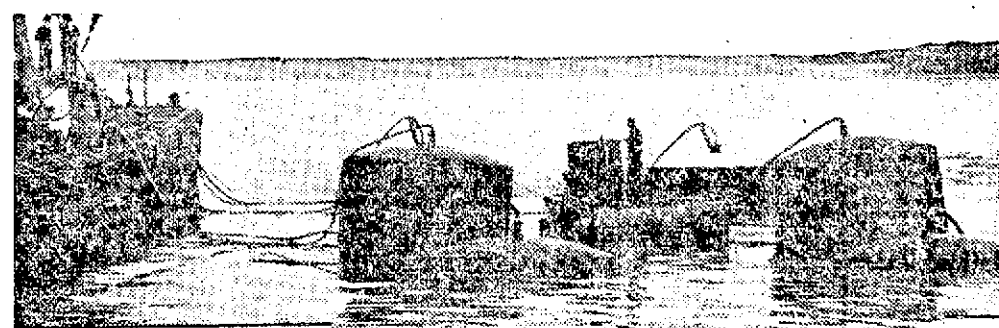

TO SAVE ANDY JOHNSON'S SHOP—This new \$15,000 building surrounds a tiny log cabin, the old tailor shop of Andrew Johnson, 17th president, at Greeneville, Tenn. In presence of state and national celebrities Miss Margaret Patterson, great-granddaughter of the tailor-president, presented the new building to the state on Memorial Day. Inset is photo of Johnson.

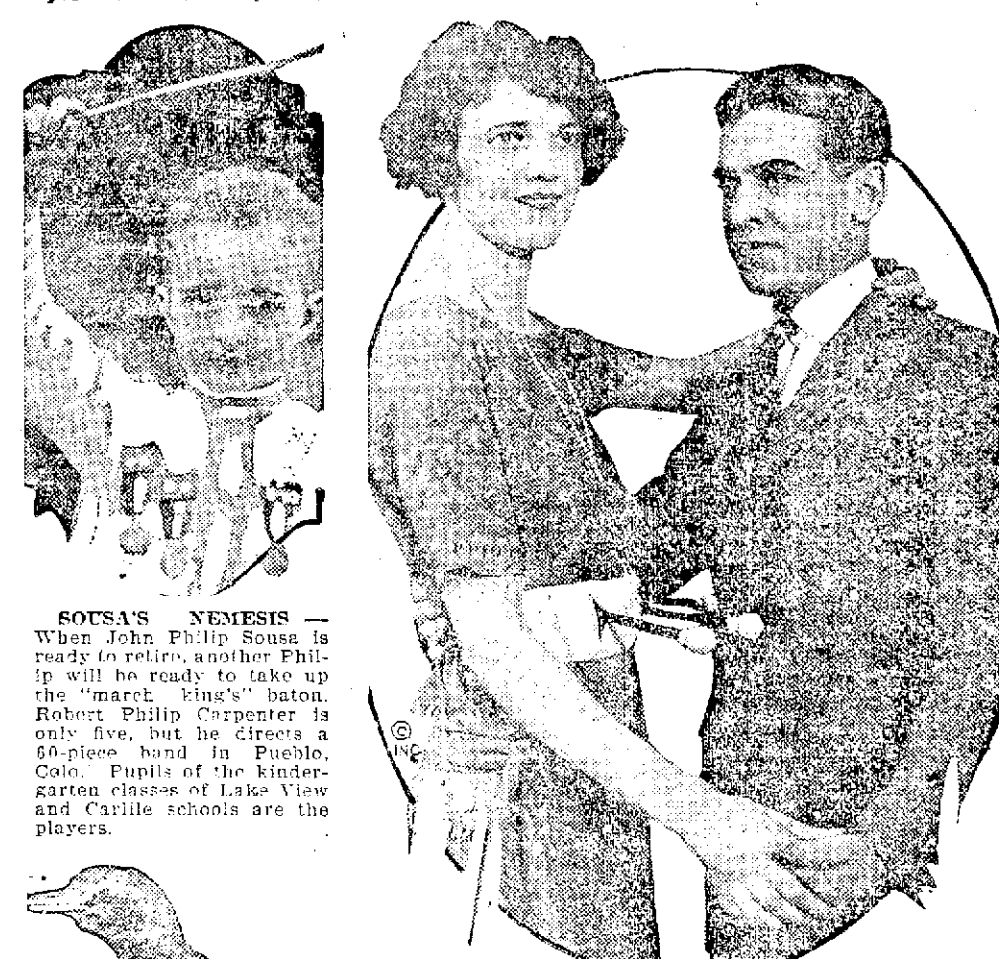

TABBY'S BRED ON A BOTTLE—Here's a Memphis, Tenn. kitten enjoying his dinner from a bottle. Poised on his back, he uses his paws to balance the milk container.

A REAL CONSIGNMENT OF TOYS FOR CHINA—Charles Toy (left), who for 45 years has been closely identified with Chinese-American commerce, is shown above with his American born children and relatives whom he took on a trip to his native land. The youngsters range from 13 months up. Toy lives in Milwaukee, where he is a prominent merchant. In Canton he will build a mansion of American style architecture. The children will be placed in the Canton Christian College to complete their education.

COMPRESSED AIR PONTONS PROVE SUCCESSFUL—This shows the Coast Guard cutter Escally being raised at Whitestone, Long Island, by means of the new compressed air pontons. A submarine tractor is lowered from a lighter. Moving around under transmitted electrical power it fixes cables for the lifting of the sunken vessel after the pontons have been placed.

NO CHEEK TO CHEEK STUFF HERE—Strangle holds are nil when she's wearing the new Madesty Bumper. If he don't keep his distance—wow! Three padded spikes will set him thinking. But the French innovation being demonstrated in Chicago by Bee Thompson and O. F. Sterling isn't taking very well with the younger set, 'tis said.

CEPID'S A FAST WORKER!—Henry Williamson and Miss Rena Maud Piper were watching a parade from opposite sides of a street in Atlanta, Ga. Their eyes met, Henry arranged an introduction. "Will you marry me?" were his first words. Thirty minutes later she said "yes." An hour later they were married, and that's how they say it was done.
